Keep off the grass until 2007

EWx 2007

EXTERNAL WORKS – THE EXHIBITION ● 17-19 April 2007, NEC, Birmingham

Looking ahead for 2007

Over 130 exhibitors will be reassessing their participation for EWx 2007 over the next few days. A high proportion will want to re-book their stands straight away. Others will want to expand or move positions. All these requirements need to be pooled together to create the floorplan that will make up the next event.

This is your opportunity to tell us your requirements now.

Why reserve now?

- The best possible choice
- Planning ahead - peace of mind
- No immediate commitment

Although we cannot guarantee your first stand choice, we can help you find the most appropriate solution to your requirements. The earlier we discuss this with you, the sooner you can forget about it!

What to do Now

Simply complete the Priority Reservation Form on the reverse of this page, giving us the details of your preferred stand size and location.

Please return the form to Ray Baxter in the Organisers' Office by 4pm on Thursday 21st April or fax back to 020 7973 4615 after the event.

We will register your request and contact you after the show to confirm your reservation, or if necessary to discuss alternative options.
